Who We Are

Newton Exports is an IEC-licensed Indian merchant exporter and sourcing partner for global buyers. We operate as a principal exporter - accepting buyer requirements, issuing direct bulk quotations under standard Incoterms (FOB, CIF), managing quality validations and executing the complete legal and logistics framework of every shipment.

We are not a one-off trading desk. We are structured as a long-term export partner with dedicated category divisions, each staffed by specialists who understand the product, the compliance requirements and the procurement expectations of international buyers. Whether you are an importer, distributor, OEM, retailer, or institutional buyer - Newton Exports provides a single, accountable interface to source, consolidate and ship high-quality goods from India with confidence.

Backed by over 25 years of entrepreneurship, consulting and international trade experience, we combine on-ground Indian execution with global business standards. India is one of the world's fastest-growing manufacturing and sourcing hubs - and we are positioned at the centre of it.

NEWTON[®] EXPORTS

CERTIFIED MERCHANT EXPORTERS FROM INDIA

Sourcing • Export Management • Private Label • Global Delivery

Our Services

Sourcing & Procurement

We identify and qualify Indian manufacturers matching your exact specifications, volume and quality requirements.

Export Documentation

Full management of shipping bills, certificates of origin (for FTA duty benefits), phytosanitary, COA, and all compliance documents.

Private Label & OEM

Custom branding, retail-ready packaging and OEM programmes across all six export divisions.

Quality Control & Inspections

Pre-shipment inspections, third-party testing via SGS/BV, material test reports and compliance certifications.

Shipping & Logistics

FCL and LCL, sea or air freight coordination, port-to-port or door-to-door, working with major freight forwarders and shipping lines.

Distributors & OEM Supply

Long-term supply contracts, scalable volumes and dedicated account management for distributors and OEM buyers.

Why Global Buyers Choose Newton Exports

- Fully licensed Indian merchant exporter under IEC 0504005693 with complete regulatory standing.
- Suppliers pre-screened for capability, quality management systems and certifications.
- Long-term supply chain partner- not a one-shipment broker.
- End to end management of documentation, inspections, freight coordination and shipment

Buy from India

India is one of the world's most dynamic manufacturing economies - combining competitive pricing, a vast supplier base, English-language business culture and a government actively incentivising exports. For global buyers, India represents a sourcing opportunity that few markets can match for breadth, quality and value.
